## Our Purpose

Mililani Community Church Preschool (MCCP) is a ministry of Mililani Community Church. MCCP provides a program for parents who want their children to receive a God-centered education in which Bible truths and principles are integrated into daily life and learning.

We believe that God created each child as a special and unique individual. (Genesis 5:2) Each child should have a well-balanced early-childhood experience that meets the child's spiritual, cognitive, social/emotional, and physical needs. Through a parent-teacher partnership, each child can achieve his or her full potential in various developmental tasks.

We believe in the importance of **PLAY** for your child. Young children learn by observing and doing. They learn by imitating and asking questions. We offer many opportunities for your child to learn by working with learning materials in a natural play setting as well as large and small group activities.

## Spiritual Objectives

We want to lay the foundation for Christ-centered living and to encourage the development of virtuous character in children by providing loving and nurturing teachers who model biblical principles, attitudes and virtues. We want to bring a joy of knowing Jesus by Bible teaching, singing worship songs and praying. We also have Chapel Time with our Church Pastor once a week.

## Cognitive Objectives

We want to provide children with concrete materials and experiences in the classroom that help develop beginning literacy, language, math, science, and art by reading quality literature that is developmentally appropriate and motivate children to learn.

## Social/Emotional Objectives

We want them to experience a joy-filled classroom that includes laughter, play, exploration, a stress-free and emotionally-safe environment that encourage children to build on imagination, cooperative play, listening, following directions, to become responsible and respect others.

## Physical Objectives

We want to promote development of large and small muscles by providing opportunities for students to practice large muscle skills such as running, skipping, jumping and for small muscle development such as small interlocking blocks and scissors.
